

# PowerTeacher Gradebook: Getting Started Quick Reference Card

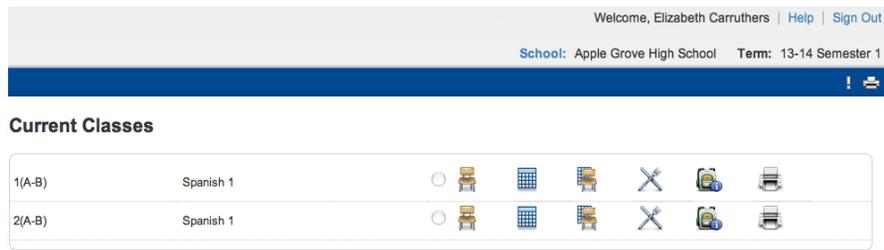

## PowerTeacher Gradebook: Getting Started

PowerTeacher Gradebook is a powerful tool for teachers. Teachers can use the gradebook to access student information, create and copy assignments across like classes, record assignment scores, access mean, median, and mode scores for assignments, communicate with students and parents, and much more.

## Launching the Gradebook

To access PowerTeacher Gradebook, begin by signing into PowerTeacher.

1. Navigate to your PowerTeacher server address

2. Enter the username and password assigned to you by your PowerSchool administrator
3. Select a school if you are affiliated with more than one school in the district
4. On the navigation menu, click the gray arrow next to Gradebook to launch the gradebook
5. As the program launches, click **Run** (Windows) or click **Trust** or **Allow** (Mac)

Note that the gradebook uses Java, so make sure you have the latest version of Java installed on your machine.

An alternate launch method for PowerTeacher Gradebook is available for teachers. Teachers can use this method to access PowerTeacher Gradebook if their browsers do not have the Java plug-in enabled. District administrators can enable this alternate launch method; then teachers can download the application and launch the gradebook from their desktop.

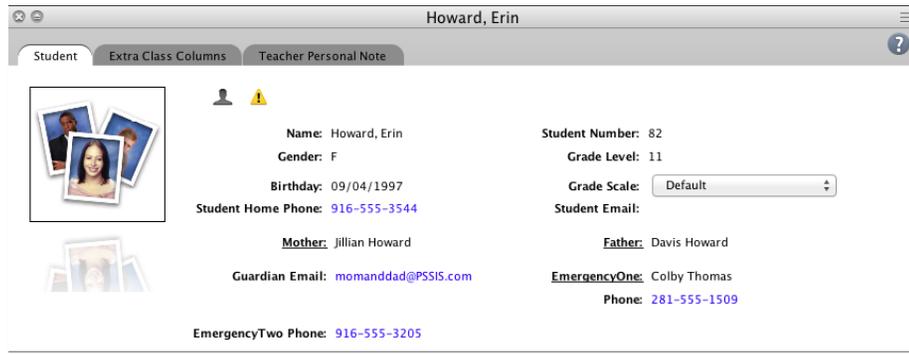

## Accessing Student Information

Although you can access student information in PowerTeacher, the gradebook contains additional student information, such as the grade scale by which you grade each student and any personal notes you write about students. To access a student's information in the gradebook:

1. In the Classes pane, select a section
2. Click **Student Info**, then double-click the name of a student

On the student's information pane, notice several icons near the top of the pane. The icons alert you to important things you need to know about your student, like medical conditions, family situations, or disciplinary considerations. Click each alert icon to learn more about your student.

# PowerTeacher Gradebook: Getting Started

3. Click any of the phone number links to enlarge the number
4. Send an email to a parent by clicking the Guardian Email link, select **Email**, and complete the email message

Alternatively, click the Guardian Email link, select **Copy** to copy the email address, and then paste the address into your email program.

5. Click **Grade Setup** to use the Grade Scale menu

Apply either the default or a custom grade scale to the selected student.

6. Use the Extra Class Columns tab to record data for columns you personalize in your gradebook

The columns listed reflect the custom columns you create, except for the Preferred Name field.

7. Use the Preferred Name column to record the name the student prefers to be called

For example, a student named Elizabeth may prefer to be called Liz. Learn more about the custom columns in the next section.

8. Use the Teacher Personal Note tab to record private information that only you have access to

## Personalizing Class Columns

Personalize student information using the extra class columns. Edit or create columns to record book numbers, locker numbers, lab partners, or emergency contacts for each of your students. There is no limit to the number of extra class columns you can create.

1. In the upper part of the pane, click **Extra Class Columns**
2. Select an existing column and click **Edit**

Click **Add** to add any new columns.

3. Enter a column name and description
4. Click **OK > Close**
5. Enter information for several students
6. Click and drag the column headings to rearrange the columns

Use column headings to change the sort order of the students.

7. Click **Save**

## Changing Student Display Settings

Use Preferences to format how students appear on your Scoresheet. For example, display preferred names for students on the Scoresheet.

1. Open the Tools menu (Windows) or the PowerTeacher Gradebook menu (Mac), and select **Preferences**
2. Click **Student**

# PowerTeacher Gradebook: Getting Started

3. From the Student Name Display menu, choose how the student's complete name will appear
4. Check **Use Preferred Name\* when available**

If the student doesn't have a preferred name, his or her full name will appear.

5. Check **Use Preferred Name\* on reports** to print the preferred name instead
6. Use the Sort Students By menu to change the default sort order of your students
7. Click **OK**

## Adding Class Content

The Class Content pane contains three modes: Class Info, School Content, and My Content. You can view and edit basic class information for the selected class in Class Info mode. The content modes contain links to websites and resources on the web. Your PowerTeacher administrator provides resources in School Content. Add online resources you'd like to use in My Content mode.

To add a link to your content:

1. Click **Class Content > My Content**

2. Below the list, click the + sign
3. Enter the name and address of the website
4. Choose a content type and group

Web Site is the default content type. If you're linking to a document that resides on your district server, select PDF or Word Doc to match.

5. Enter a description of the resource
6. Click **Save**, and the link will appear on the My Content page

My ...	Name	Group	Type	Address	Description
1	Teachers First	Group	Web Site	www.teachersfirst.com	TeachersFirst: The web resource by teachers, for teachers
2	Thinkfinity	No Group	Web Site	thinkfinity.org	CCSS, resources cross-curricular

To add a link to your class description:

1. In the Classes pane, select a section
2. Click **Class Content > Class Info**
3. Enter a description
4. Click **+ link**
5. Select the link you wish to add, then click **OK**
6. Make changes to the description, if needed, and click **Save**

The class description and any links you have added are visible in the PowerSchool Student and Parent Portals. Students and parents can click the links to access the website or other online resources.

# PowerTeacher Gradebook: Getting Started

To change the name of one of your sections as it appears in the Classes pane:

1. Select a section
2. Click **Class Content > Class Info**
3. For Custom Display Name, enter a new name
4. Click **Save**

To display the new class section name in your list of sections:

1. From the Tools menu (Windows) or the PowerTeacher Gradebook menu (Mac), select **Preferences**
2. Click **Section**
3. Select **Custom Display Name > OK**

## Creating Categories

To save you time, the gradebook contains four pre-defined categories: Homework, Project, Quiz, and Test. You can access these categories, and any you create, in each class you teach. To create a new category:

1. From the Tools menu, select **Categories**
2. In the lower left corner, click **+**
3. Give the category a name, abbreviation, and a default number of points possible
4. Choose a color, score type, and publish assignment option
5. Check **Include in Final Grade**, if appropriate, and add a description

To add another category, click **+**. To edit an existing category, select it and change any of the values. Click **-** to delete the selected category.

6. Click **Close** to save the categories you created or modified

The screenshot shows the 'Category' dialog box in the PowerTeacher Gradebook. On the left, a list of categories is shown: Behavior (selected), Homework, Project, Quiz, and Test. The main area is titled 'Category' and contains the following fields and options:

- Name:** Behavior
- Abbreviation:** BH
- Color:** Olive
- Points Possible:** 10
- Extra Points:** 0
- Score Type:** Points
- Include in Final Grade:**
- Publish Assignment:** Immediately
- On Date:** MM/dd/yyyy
- Days Before Due:** 0
- Publish Scores:**
- Description:** polite, works well with others, follows directions, helps others.

At the bottom, there are buttons for '+', '-', '?', 'Cancel', and 'Close'.

## Entering Assignments

You can add assignments to the gradebook anytime during the school year, as well as copy assignments from a previous school year or term. To create an assignment in the gradebook:

1. Click **Assignments**, and below the Assignment list, click **+**
2. Enter a name, abbreviation, category, and score type
3. Enter a number of points possible, any extra points, weight, and date due
4. Check **Include in Final Grade**, unless the assignment is a draft or non-graded activity
5. Add a description so students and parents can view what is required for this assignment
6. Click the Publish tab
7. Choose to publish the assignment immediately, on a specific date, or a number of days before it is due
8. Check **Publish Scores** to show scores in the PowerSchool Student and Parent Portals
9. Click the Standards tab
10. If standards are associated to this class, check the standards aligned to this assignment
11. Click **Save**

The assignment will appear in the assignment list as well as the Scoresheet.

The screenshot shows the 'Poetry Book' assignment entry form in the PowerTeacher Gradebook. The form is titled 'Poetry Book' and has three tabs: 'Assignment', 'Publish', and 'Standards'. The 'Assignment' tab is active. The form contains the following fields and options:

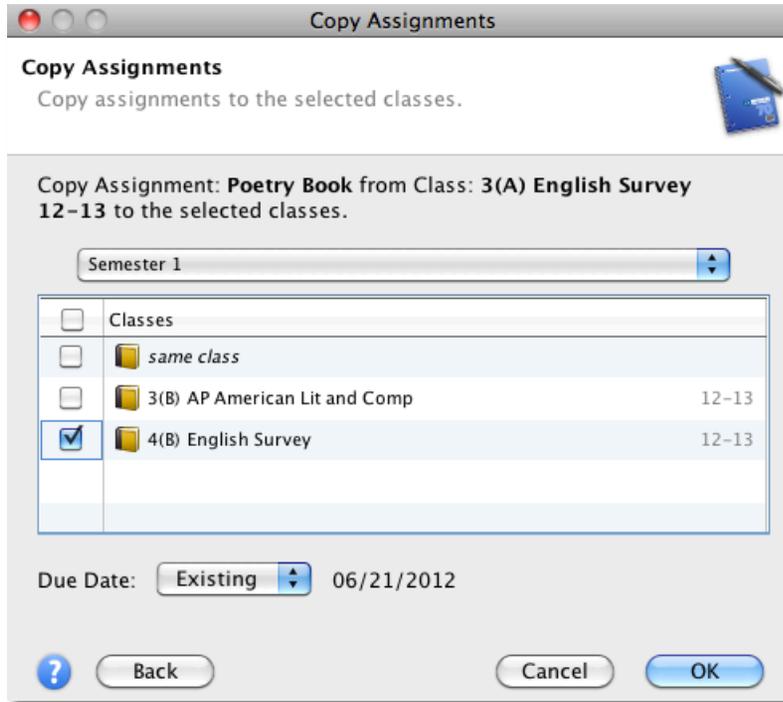

- Name:** Poetry Book
- Abbreviation:** Poetry Book
- Category:** Project (dropdown menu)
- Score Type:** Points (dropdown menu)
- Points Possible:** 10
- Extra Points:** 0
- Max:** 10
- Weight:** 1.00
- Date Due:** 06/21/2012 (calendar icon)
- Include in Final Grade:**
- Description:** (text area with a '+ link' button)

## Copying Assignments

You can copy assignments from one class to another, or from current or previous terms. Use the Current Classes menu in the Classes pane to select previous classes. Select to copy one assignment, several assignments, or all assignments.

1. Select the class that contains the assignment(s) you want to copy
2. From the Tools menu, select **Copy Assignments**
3. Check the assignments you want to copy, and click **Next**
4. The Copy Assignments window defaults to the current term, but you can also choose previous or future school years
5. Check the class or classes to copy the assignments to
6. Choose to keep the existing due date, assign today's date, or enter a custom date
7. Click **OK**

# PowerTeacher Gradebook: Getting Started

## Entering Scores

When entering scores, make sure to use the type of score that you set up when you created the assignment: numbers for points and percentages or letters for letter grades. Enter scores manually or use the quick-entry method.

1. Click **Scoresheet**, and click the cell that is the intersection of the row containing the student's name and the column of the assignment
2. Enter the score, such as 25 or **A**
3. Press **Enter** to advance to the next student or **Tab** to advance to the next assignment
4. When you are finished entering scores, click **Save**

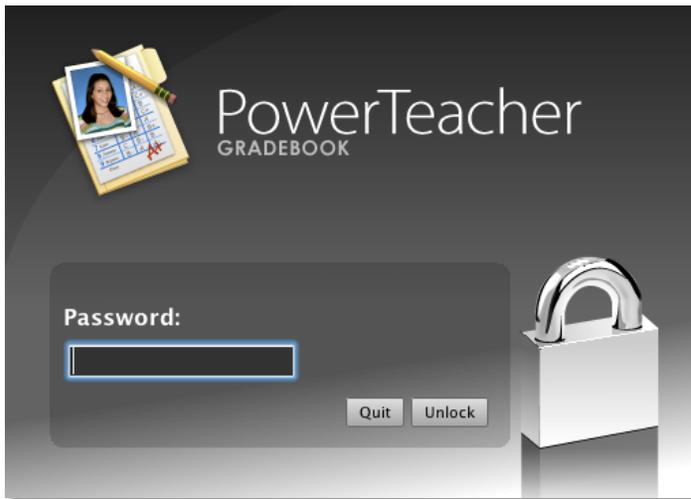

Students (33)	(S1) Final Grade	A	T	chapter 1 reading 06/09/2012 pts: 20	Poetry Book 06/21/2012 pts: 10
Anderson, Cody	B 92% n/a	-	-	20	9
Briggs, Justin	C- 70% n/a	-	-	10	8
Bushman, Joshua	A 96% n/a	-	-	19	7
Cowley, Amy	A- 94% n/a	-	-	18	6
Emch, Felicia	B 95% n/a	-	-	18	5
Ham, Kendall	A- 91% n/a	-	-	18	5

## Locking the Gradebook

When you're ready to end your PowerTeacher Gradebook session, sign out and close the gradebook. If you're in the middle of a task and don't want to end your session, lock the gradebook. To keep your information secure, lock your gradebook two different ways:

1. Use the keyboard shortcut **CTRL-L** (Windows) or **Command-L** (Mac), or navigate to the File menu, and select **Lock Gradebook**

2. The lock screen appears, covering the entire gradebook and keeping student information private
3. If you want to unlock the gradebook, enter the same password you use to sign in to PowerTeacher, and click **Unlock**
